### **GET THE WORD OUT** **Nov 11-12, 6:00pm – 9:00 pm**

Only a few more weeks before the ARK sponsored mini conference! Announce it at your church, tell your co-workers. Let's fill the event (400 possible). Copy and post the enclosed sample flyer on page 2 or download it from the web. A bulletin insert and a PowerPoint slide are also available at the web site, <http://www.arky.org/>.

Another option is to use the mini bulletin insert on this page and print out copies of the flyer or bulletin insert on the web to place on your church's information table for people to pick up.

This is our first significant conference, six presentations with three speakers (one via DVD) with a positive focus on the creation position, compared to the dying one of evolution. Evolution is still doing some serious kicking, but come learn how to keep it from kicking you or yours.

Resources (Books and

DVDs) will be available to purchase. A free will offering will be taken to cover expenses.

Mini bulletin insert:

## Who Are We

The Ark Foundation of Dayton, Inc.

We are a non-profit organization set up to Educate, Train, Encourage and Assist All People To Understand How Great Is Our Creator & Designer—God.

We are organized to affect the public dialog on issues of science and religion in our community. We concentrate on presenting information and assumptions behind the two major worldviews with their weaknesses and strengths. Our standard is that the Bible is correct, not like the changing scientific community. We see true science in accord with the Bible, instead of fitting the Bible into the constantly changing Scientific Dogma.

Statement of Faith: We believe in the Word of God as stated in the Bible to be literal in context or as interpreted by itself. Specifically we believe the Genesis account of a seven (6 work + 1 rest) day literal creation week, death coming as a result of Sin, a global flood, and the Hope of the Resurrection. We believe Biblical Truth first, scientific theory second, especially since it defines itself as always changing. We believe good science flows from an honest understanding of Biblical Truth and in questionable areas is a servant of the Bible. We believe God is who He says He is and are committed to exposing these truths to the general public.

### Psalm 34: 1-4

I will bless the LORD at all times: his praise shall continually be in my mouth. My soul shall make her boast in the LORD: the humble shall hear thereof, and be glad. **O magnify the LORD with me**, and let us exalt his name together. I sought the LORD, and he heard me, and delivered me from all my fears.

## LOOKING AHEAD

**\*Nov 15-18:** 9:00 am until 5:00 pm. **Windows of the World Missionary Convention** with [Two Major Speaker Programs](#) at Duke Energy Convention Center, 525 Elm Street, Cincinnati, OH. Ph: (937) 256-ARKY. See link for detailed information. Separate programs for Adult, College, Teens, Youth.  
<http://nationalmissionaryconvention.org/>

**\*Dec 10:** 7:00 pm until 8:35 pm. **DVD: Facing the Giants** with ARK Monthly Meeting at ARKY's House, Dayton, OH. Ph: (937) 256-ARKY. As we finish this year and promote the Creation message, we want to feature some interesting family fare. This out of nowhere smash hit is the second film produced BY A CHURCH. They admit it took a lot of effort, but it worked well. This is a feel good, full length, feature film that glorifies God. It is something we all need in the holiday season. Guys, it's about football. Gals, it's about family. Sons and daughters, it's about never give up, never back down, never lose faith. People, It's about time we invest in these good things.

## Notes on Global Warming

by Ronnie E. Cooper

There is a massive amount of propaganda in today's world about **Global Warming**. I am like you and wanted to know if it had any truth or know cause. I believe I have found out to two major causes and the minor one. It is very related to our world views and I will not give detail in this short article. I am hoping many of you will like to hear more and will tell us. Here goes.

Major Reason One: About 4000 years ago a massive destructive worldwide flood was reported on earth by its sole survivor. The aftermath included a massive weather change. The polar regions froze and earth temperatures dropped. Since that time the ice it created has been melting in an ebb and flow and it retreated back further north and the

waters returned to the oceans around the reformed continents. The coastal areas experiences both erosion and increased tide from the melting which continues even today. Coastal flooding is to be expected. We should not build our houses on the sand!

Major Reason Two: An observed very high correlation between sun spot activity and earth temperatures has been observed and measured for at least a hundred years. About six years ago a mechanism was demonstrated as the cause. Solar flares create massive energy differences which have many effects. The unknown one was they create more or less clouds over the earth: more clouds, lower temperatures. This is the basic ebb and flow of temperatures on earth.

Both of these reasons are long period effects, thousands of years for the first and decades and centuries for the second.

Minor reason One: Human activity has a less than two percent effect on global temperatures, but that is significant, just not equal to the cost and hype we hear about. Carbon dioxide build up is locally real. **PLANT MORE TREES!** Seventy percent of earth is under water. Understand that most of the little critters at the bottom of the food chain convert it to oxygen. We have been given a recycling planet. The rules for managing it are in the **B**asic **I**nstruction **B**ook **L**eft on **E**arth. That's the BIBLE. What are those rules you might ask. That's another article!

### ARK's Ron Cooper on His Calling

This special edition is intended to mark the major change point on what ARK will do for the future. I am replacing the effort I used to do on the DRCF (Dayton Resource Curriculum Fair) with doing speaking, writing, and organizing seminars like our upcoming first mini conference, "The Death of Evolution."

These conferences/seminars are intended to be on a par (to the best of our ability) with an Answers in Genesis seminar. Ken Ham will not be here, but two quality speakers, Dr G Charles Jackson of Points of Origin (Ashland, KY) and myself will be here. And through the magic of DVDs, Dr G Thomas Sharp, founder of Creation Truth Foundation, Inc. (Noble, OK) will be giving a very dynamic and informational set of messages. Each of us are founders of different local creation ministries with years of experience we are bringing to this one event. Each of us bases our thinking on Biblical truth and knows historical and scientific information to illustrate it.

I have surrounded myself with great speakers and I have every intention of doing my best, **but we need you to pray about this new event, tell others (invite them, give them flyers, PowerPoint ads, etc from web site), and attend one or both evening programs.** Hopefully, you will want to schedule future events for your church.

Note: ARK is not doing DRCF any more. If any home school group wants to do it contact us immediately (you need time to do it and vendors schedule their time far in advance).
